Bonk Power!

Evil King Drool is up to it again! This time he's kidnapped the beautiful Dragon Princess, Za, and hidden her away.

The year is 10,000 B.C., and as Bonk the Caveman, it's your job to get her back. Unfortunately there are not a lot of weapons around, so you'll just have to use your head—literally!

Object of the Game

Save Princess Za by head-butting your way through a primitive world. Face deserts, volcanoes, and tropical forests filled with dinosaurs, alligators and other monsters. Score points and power-up by eating fruits, vegetables and meat. Obtain extra lives by reaching high scores or capturing little Bonks. The game is over when Bonk loses all his "vitality," or you save Princess Za and destroy the ultimate Boss, King Drool himself.

Note: Bonk's Adventure is a one-player game.

Special Techniques

Cliff Climbing

When Bonk fails to jump over a cliff, but hangs on to the cliff wall, keep tapping Button I to make him climb up the wall

Jumping Head-butt

Push Button I to jump, then push Button II. Bonk will fall head-over-heels onto the enemy. This move is twice as effective as a normal head-butt, and you will need this technique to defeat enemies in higher stages. Be careful, however, because you will be vulnerable for a few moments if you miss

Continuous Head-butt

Head-butt enemies by jumping underneath them as many times as you can while you are spinning in the air. Your score will increase dramatically.

Spin Jump

To increase both your jumping distance and time in the air, tap Button II continuously after you have jumped into the air. Mastering this technique will make your adventure much easier.

Defeating Enemies

Bonk defeats his enemies by head-butting them. Different enemies have to be head-butted a different number of times. Some enemies cannot be defeated and must be avoided

Scoring

Points are awarded to Bonk in four different ways:

Eating Fruits and Vegetables

Different types of fruits and vegetables have different point values.

Capturing Smiley Faces

Throughout the game, Bonk will encounter "Smiley Faces." Capturing these faces will give you bonus points and replenish your life meter after a Boss is defeated (bonus points are awarded at the end of each level).

Repeated Butting

Extra points are awarded for continuously butting an enemy into the air

Bonus Stagas

Four Bonus Stages are hidden within this game. If you find your way into one or more of these stages, you can win awesome bonus points! Experiment!

Cliff Climbing

Climb as high as you can in 10 seconds (keep tapping Button 1).

Continuous Spin

Jump off the cliff and keep tapping Button 1! Bonk starts to spin in the air! Try to spin as many times as you can before landing (make sure you land on your feet!).

Continuous Jump

Jump from spring flower to spring flower to collect as many fruits and vegetables as you can.

Head-butting the Volcano Rocks

Head-butt the rocks thrown from the volcano!

Hidden Rooms

There are hidden rooms throughout Bonk's Adventure. Discover these rooms by head-butting blocks. Push up to enter them.

Obtaining Extra Lives

Bonk has 3 lives at the beginning of the game. You can earn more lives by accumulating points or capturing a Little Bonk figure! Earn 1 extra Bonk at 10,000, 20,000 and each additional 20,000 points.

Losing Lives

Each heart is worth 5 points. Bonk loses vitality points (and lives) depending upon the success of his enemies' attacks. Bonk can increase the number of hearts he has by picking up empty (blue) hearts and filling them up.

Screen Displays

Powering-up Bonk!

Eat Meat!

Bonk is a meat eater! This means every time Bonk eats meat, he becomes more powerful!

Smell Meat

Eat a small piece of meat and Bonk's head-butt and jumping head-butt become twice as powerful. He can also freeze all visible enemies by head-butting the ground.

Two Small or One Large Meat

When Bonk eats two small pieces of meat, or one large piece, he becomes *invincible*! During the time he is invincible, he can defeat his enemies by running through them.

Note: Eating meat "powers-up" Bonk for only a short amount of time. If Bonk is injured while powered-up, his power will be reduced. After becoming invincible, remember that Bonk's power wears off gradually. However, you will find his head-butt is still three times as powerful as before! This extra strength can be used to freeze enemies. Watch Bonk's color to determine his power-up strength.

Jump on Spring Flowers!

Flowers will appear at certain times during the game. Jumping on top of these flowers will often make valuable items appear! But be careful! There may be wicked flowers waiting to trap you!

Pink Flower

Fruit, vegetables, sometimes even a heart may appear.

Yellow Flower

Use this flower as a springboard to jump even higher.

Red Flower

A small piece of meat may appear.

Green Flower

Jump on top of this flower and a crystal heart will appear. Plus, your vitality gauge will be increased by 5 points. There are only 2 Crystal Hearts in the game. At first the heart will be empty, so fill it up by eating as many fruits and vegetables as possible.

Dark Red Flower

Catch this flower in the air and as it lands it will change to pink. Jump on it again to collect a special item!

Levels

Bonk's Adventure contains five different levels composed of many different playing fields. At the end of each level, Bonk will meet friends who have been hypnotized into thinking that Bonk is their enemy. To finish the level, Bonk must head-butt his friends' heads until he breaks the spell. At the end of the fifth level, Bonk must save the Princess. If successful, Bonk will be transported to a different planet where he will fight King Drool, the ultimate Boss Character.

Bonk's Enemies

These are just a few of the monsters that attack Bonk.

Gladdis

Kongo Zilla

Punchy Pedro

T. Ractorhaad

Evil King Drool
